Integration

Systems & Infrastructure

Thin Servers & Thin Architecture!

→ unbandling
→ flexible integration

↓
Lowcode Integration

THE WEB is Great **But**
Many Things are Constrained
and wireless!

to the Rescue

CoAP

- build on top of UDP
- multicast
- Publish/Subscribe
- efficient

- Web of Things allow integrate IoT through Web Platforms
 - Web Technology has been adopted for resource-constrained devices
→ CoAP
 - Open Source and Standard Protocols available
 - Efficient onboarding is key!
- Plugging & Plumbing is not enough
